6 good reasons to experience SQUARE

Unique location

Situated on the imposing Mont des Arts with a broad vista over Brussels, SQUARE sits in the historical and cultural heart of the city, very close to the centre of European government and in the vicinity of over 10,000 hotel rooms.

Sustainably managed

SQUARE strives to minimise its impact on the environment and ensures that each event is as green as possible. We consistently try to reduce our energy usage and the waste we produce – and we expect the same level of environmental commitment from our suppliers. SQUARE proudly holds the first star of the Ecodynamic label which is awarded by the Brussels Environment agency, as well as ISO 20121 certification. We even use electric bikes for tours of Brussels city – all to ensure a low carbon footprint.

Easy access

SQUARE is minutes away from the capital's main transport hub, Central Station, which has a direct and fast train connection to Brussels International Airport (17 minutes, 12 kilometres). Local train, tram, metro and bus lines all converge at Central Station, providing access to the entire city and rest of the country.

Customer care

Team SQUARE offers a complete and integrated on-site service. Throughout the event preparation process, you are assigned an experienced project manager, who remains your single point of contact and guides you seamlessly through each phase.

State-of-the- art venue

The venue offers 13,000 square metres of modular space and is built to state-of-the-art standards which includes an audio visual and ICT network second to none. With a capacity of up to 7,000, the venue houses five auditoria, seven multipurpose halls, 25 modular rooms and 4,000 square metres of exhibition space. This allows SQUARE to offer a multitude of configurations for any type of event: international congresses, summits, conventions, product launches, corporate events, shows and more.
